COMPANY HISTORY

Diva Engineering Ltd, a company established in 2015, is a market leader in design, supply installation, integration and commissioning of unified ICT, Multimedia and security systems/solutions. Over the years, we have grown to become one of most respected providers of cost effective and innovative solutions in building communication, information and security solutions with the widest range of services. Based on our pillar of confidence, reliability, vigilance, creativity and integrity backed with our client commitment and back up. Our mission has always been to exceed customer's expectations in the provision of innovative solutions for your home or business through state-of-the-art technology.

Our client approach is far from over even long after the system has been set up and running. Whether remotely responding to urgent service calls or sending trained personnel onsite to address complex issues, customer support is one of Diva Engineering core values. Complementing our commitment to innovation, we have established partnership with building contractors, developers and consultants as well as leading-edge start-up companies like;

HOW WE CREATE QUALITY

**OUR METHOD OF
TECHNOLOGICAL
QUALITY ASSURANCE**

**EQUIPMENT OF THE
HIGHEST QUALITY POSSIBLE**

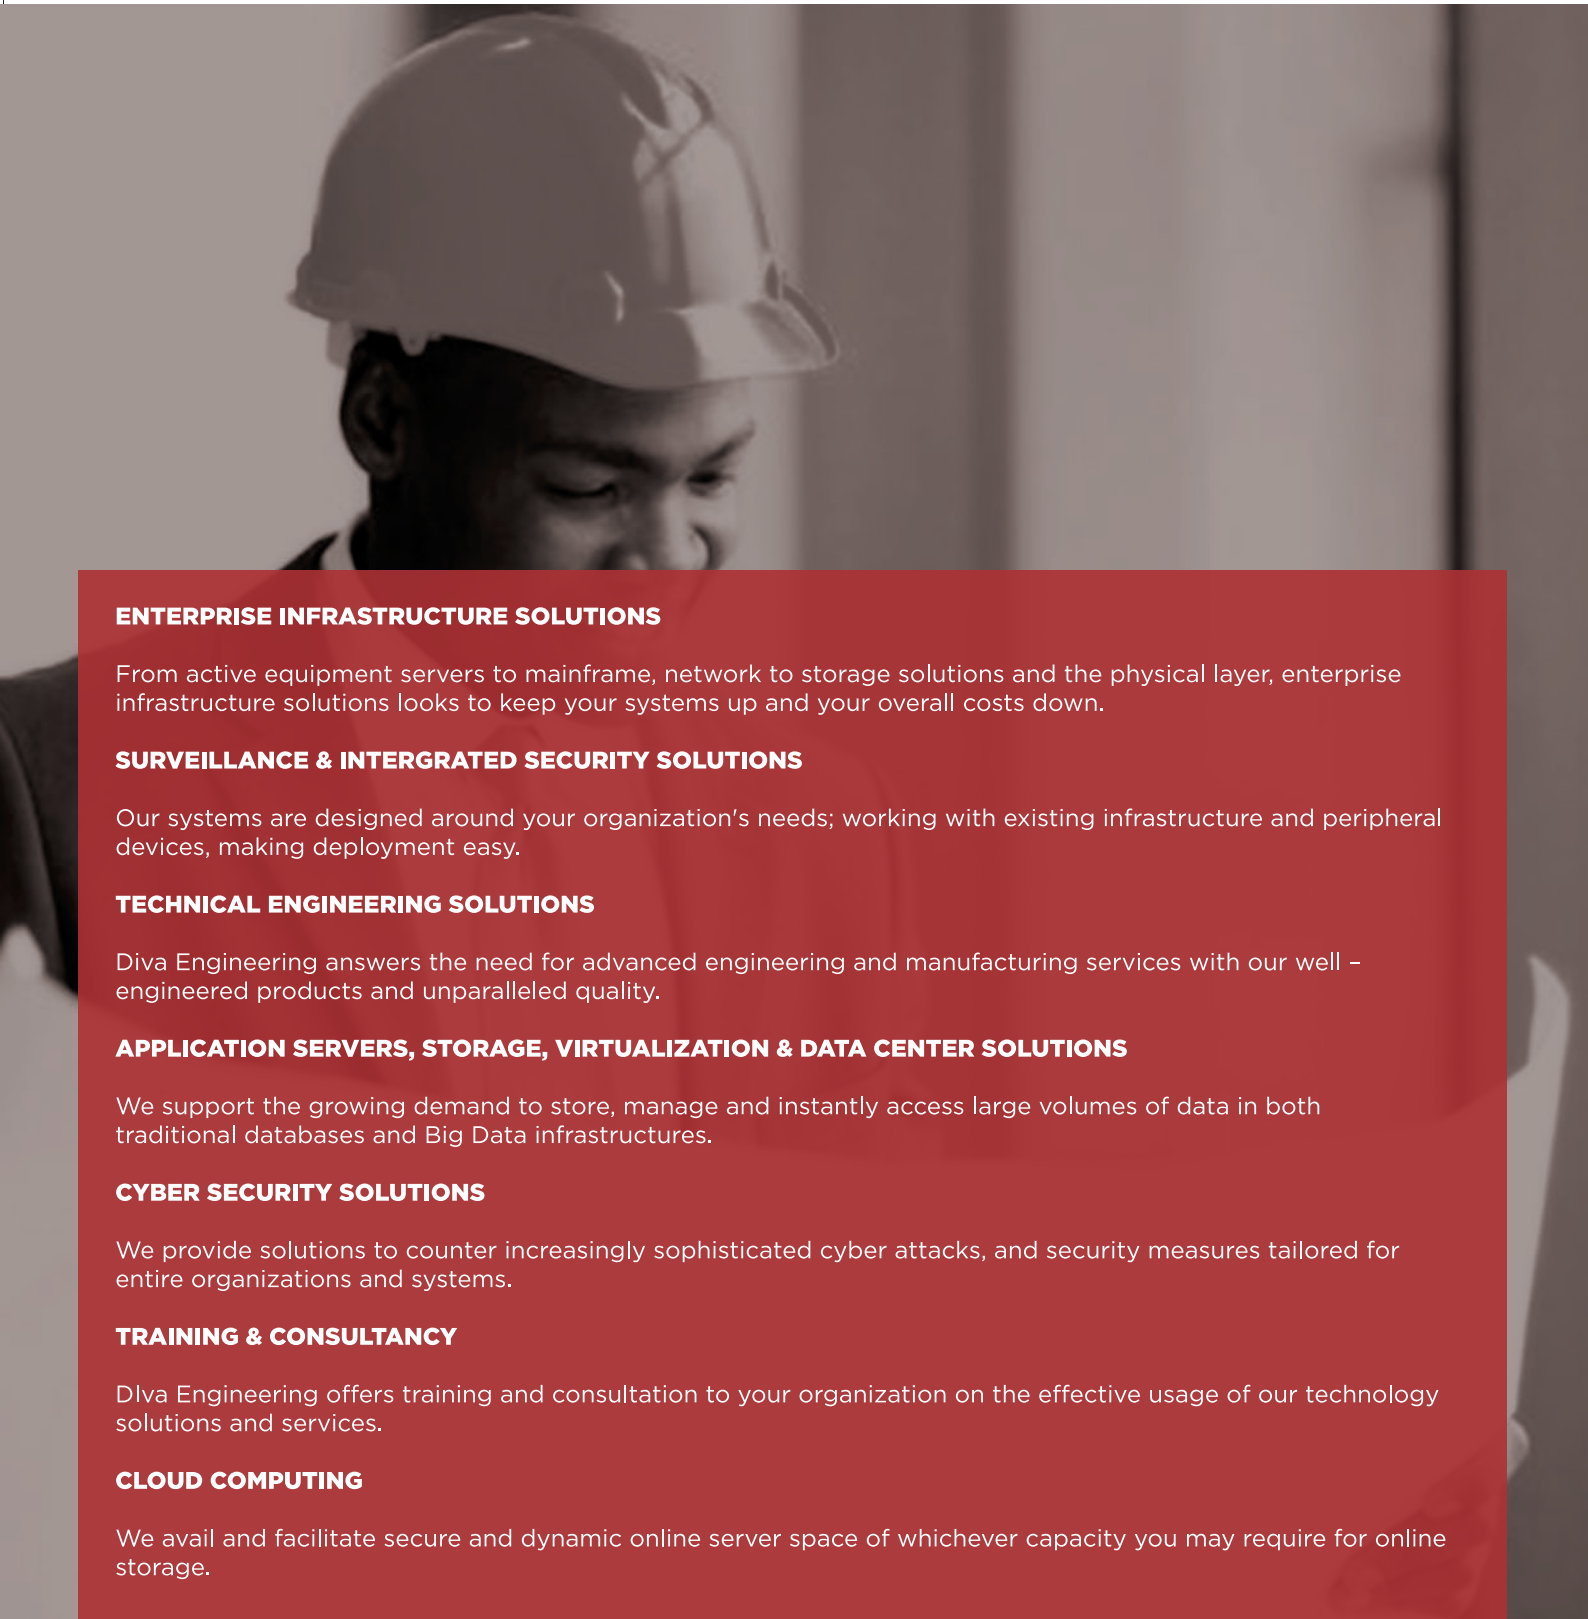

**PRICES RANGING IN
A FAIRLY REASONABLE RANGE**

**PARTNERSHIP WITH
GOOD INTERNATIONAL BRANDS**

Thoroughly tested in the well of experience, We have learned to balance our practical business sense, client satisfaction and the requisite technical prowess. We don't believe in ourselves, we believe in ourselves not to lose the trust each client places in us.

WHAT WE DO

ENTERPRISE INFRASTRUCTURE SOLUTIONS

From active equipment servers to mainframe, network to storage solutions and the physical layer, enterprise infrastructure solutions looks to keep your systems up and your overall costs down.

SURVEILLANCE & INTEGRATED SECURITY SOLUTIONS

Our systems are designed around your organization's needs; working with existing infrastructure and peripheral devices, making deployment easy.

TECHNICAL ENGINEERING SOLUTIONS

Diva Engineering answers the need for advanced engineering and manufacturing services with our well - engineered products and unparalleled quality.

APPLICATION SERVERS, STORAGE, VIRTUALIZATION & DATA CENTER SOLUTIONS

We support the growing demand to store, manage and instantly access large volumes of data in both traditional databases and Big Data infrastructures.

CYBER SECURITY SOLUTIONS

We provide solutions to counter increasingly sophisticated cyber attacks, and security measures tailored for entire organizations and systems.

TRAINING & CONSULTANCY

Diva Engineering offers training and consultation to your organization on the effective usage of our technology solutions and services.

CLOUD COMPUTING

We avail and facilitate secure and dynamic online server space of whichever capacity you may require for online storage.
